PROFESSIONAL SUMMARY

Backend-focused Full Stack Developer with experience building scalable web applications, REST APIs, real-time collaborative systems, and cloud-native deployments. Skilled in MERN Stack, Docker, Kubernetes, AWS ECS/Fargate, CI/CD pipelines, and microservices architecture. Strong understanding of system design, containerization, and deployment automation.

EDUCATION

Dr. B.C. Roy Engineering College

B.Tech in Computer Science and Engineering (Data Science)

- CGPA: 6.78

Durgapur, West Bengal

2022 – 2026

TECHNICAL SKILLS

Languages: Python, C++, Java, JavaScript

Frontend: React.js, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, Flask, REST APIs, Microservices

Databases: MongoDB, MySQL, SQLite

Cloud & DevOps: AWS (EC2, ECS, ECR, Lambda, S3, IAM), Docker, Kubernetes, Terraform, GitHub Actions, Ansible

Tools: Git, GitHub, Postman, GitLab

ML & Data: TensorFlow, PyTorch, Scikit-learn, Pandas, NumPy, OpenCV

PROFESSIONAL EXPERIENCE

Software Engineer Intern

Jul 2025 – Aug 2025

Eastern Coalfields Limited (ECL)

- Developed and maintained RESTful APIs using Flask, improving backend efficiency and request handling by 30%.
- Engineered a leave management system for 100+ users with secure data handling and responsive dashboard management.
- Automated deployment workflows using GitHub Actions, reducing manual deployment time by 70%.
- Integrated structured logging, debugging workflows, and technical documentation to improve application reliability and maintainability.

PROJECTS

Real-Time Collaborative Coding Platform | [Link](#)

- Built a real-time collaborative coding platform using React.js, Node.js, Express.js, Tailwind CSS, and Yjs for synchronized multi-user code editing.
- Designed shared coding rooms with concurrent multi-user editing and low-latency real-time collaboration features.
- The application was containerized and deployed on AWS ECS Fargate using Docker and Amazon ECR.

GenAI Resume Intelligence & Interview Preparation Platform | [Link](#)

- Developed an AI-powered platform for ATS-friendly resume generation and interview preparation.
- Integrated Google Gemini API for resume-job matching, skill-gap analysis, and personalized learning roadmap generation.
- Deployed the Dockerized MERN application on AWS EC2 with automated CI/CD pipelines using GitHub Actions.

Notes App

- Containerized and orchestrated a full-stack application using Docker and Kubernetes.
- Implemented Kubernetes HPA auto-scaling, Ingress routing, and service exposure for scalable deployment.
- Reduced deployment time by 95% through GitHub Actions-based CI/CD automation.

AI Voice Assistant

- Built a modular voice assistant using Python and NLP techniques.
- Established speech recognition and automated system command execution functionalities.

PUBLICATIONS

Advancing Lung Cancer Diagnosis and Prognosis

- Accepted at **CICBA-2024** (Paper ID: 203).
- Focused on machine learning-based prediction and analysis for the early detection of lung cancer.

CERTIFICATIONS

NVIDIA GenAI Practice – Hands-on experience with Generative AI concepts and applications.

Spoken Tutorial Certifications (IIT Bombay): HTML, Java, Python, RDBMS, Drupal.
